Samsara Driver App: Firmware 47.6.6124 or Higher

Driver App Assignments Page

The new driver Assignments page replaces the existing vehicle and trailer selection workflow. It is easier for drivers to understand and manage their current assignments.

Important note Hazardous Material and Placarding information is not part of this change.

Summary

City Drivers: Equipment and Manifest information will be prepopulated in the driver app. **Road /UE Drivers**: Equipment and TP2 information will be prepopulated in the driver app.

The following pages serve as guide to the new changes to assignments.

assignment Ask your fleet manager for your login info. Review equipment and shipping IDs to add them to your current log. 5 1 2 3 6 78 4 9 0 t y u q w e 1 1 0 p ĸ d a n Review n m \otimes Q z D С Not now 7123

Skip New Assignment

Notes:

- If a driver is already logged in or chooses to delay the review of new assignment, "New Assignment" under the current duty status can be clicked on to start or resume the autopopulation of equipment.

 Auto-Duty status change will not work until a vehicle has been selected.

Step 5: Press "Add a Shipping ID(s)" and then press "Done" to complete

Rejecting Tractor special note:

If you reject assignments with an incorrect tractor number the system will take you back to the default assignments page and you will have to enter all equipment information manually like it has been done prior to implementation of this enhancement.
